CONTENTS

FOREWORD ................................................................................................................................. 9

Part A. ECONOMIC AND MANAGEMENT CHALLENGES IN THE ERA OF GLOBALIZATION ......................................................................................................................... 11

1. Yurii VASILEV – Competitiveness evaluation of coal enterprise ........................................... 13

2. Diana DMITRIEVA – Recommendations for the strategic analysis process of mining and chemical companies improvement ................................................................. 25

3. Sergey FEDOSEEV, Maria TOCHILO – Perspectives for reproduction of the dioxide titanium industry ................................................................................................. 39

4. Anna TSVETKOVA – Prospects of information innovations in fuel-power and mineral complexes ...................................................................................................................... 49

5. Jolanta BLAŃSKA, Krzysztof WODARSKI – Risk management of activating and mining of a longwall in a coal mine .................................................................................... 61

6. Seweryn TCHÓRZEWSKI – The ability to innovate in a coal mine – areas and limits ................................................................................................................................. 75

7. Marina NEVSKAY, Oksana MARININA – Application of the project approach to the management of mining waste ....................................................................................... 89

8. Tatiana PONOMARENKO, Kseniia KOVESHIKOVA – Real options in the project management of diversification program (a case study of Mongolian-Russian company CCW "ERDENET") ................................................................................................................................. 101

9. Adam GUMIŃSKI – The influence of effective work time on an employment level in a colliery – case study ........................................................................................................ 111

10. Anastasiia KUTILOKINA, Alexey CHEREPOVITSYN – Peculiarities of the Russian small oil business’ development in the current economic environment ..... 123

11. Sergei KOROTKII – Corporate form of governance as an element of the globalization process ............................................................................................................................... 133

12. Ekaterina GOLOVINA – Analysis of the problems in groundwater extraction management due to changes in the law “about mineral resources” ........................................................................... 145

Part B. TECHNOLOGICAL CHALLENGES IN THE ERA OF GLOBALIZATION ................................................................................................................................. 155
13. Aleksandr ELISEEV, Pavel SHCHERBAN – Development of mining companies’ logistics schemes in the Baltic sea area 157

14. Victor ALEXANDROV, Pavel MAKHARATKIN – Express-diagnosis of the technical state slurry pumps in systems hydrotransport processing tails of ore 167

15. Joanna BARTNICKA, Damian GIZA, Agnieszka ZIĘTKIEWICZ, Grzegorz KOWALSKI – Musculoskeletal occupational hazards in two challenging working environments. A case study from mining industry and health care 181

16. Kinga STECUŁA, Jaroslaw BRODNY – The OEE model as a tool for effectiveness assessment of the use of equipment 195

17. Olga GEGECHKORI, Elizaveta KOZLYAKOVSKAYA – Import substitution as a factor of the agricultural development in the Kaliningrad region 207

18. Victor NORDIN, Pavel SHCHERBAN – Improvement of management decisions quality at the engineering and constructing stages of modern mining companies 217

19. Pavel MAKHARATKIN, Sergey AVKSENTEV, Inna TRUFANOVA – Development and improvement of conveyor transport in the conditions of complicated operation in modern mining industry 229

20. Victor NORDIN, Victor MUROV – Logistical approach to monitoring operation of underground gas storages (UGS) 241

Part C. ECOLOGICAL CHALLENGES IN THE ERA OF GLOBALIZATION 251

21. Jaroslaw MIKOLAJEK – Production and consumption of black coal and lignite in selected European countries in the context of the climate change policy 253

22. Tomasz SZULC – Ranking of the revitalization projects versus the needs of degraded municipal areas – case study of the municipality of Mysłowice 265

23. Yuriy KOMAROV, Mikhail MARININ – The pile storage of potash plant to the selected reclamation directions 279

Part D. SOCIAL CHALLENGES IN THE ERA OF GLOBALIZATION 289

24. Radosław WOLNIK – The relations between uncertainly avoidance and the concept of Corporate Social Responsibility 291

25. Remigiusz KOZUBEK – CSR in the extractive industry – theoretical assumptions and best practices 309

Summary 331
